# Method

Students in New Jersey, ranging from grades 5-12 voted primarily via paper ballots. Ballots can be viewed at <http://njmockelection.org/voting/>. Students submitted votes for four categories: President, House of Representatives, whether or not NJ should enact a gas tax, and whether or not there should be term limits for Congressmen. 85% of the students submitted votes for all four categories. The remaining 15% only submitted votes for the presidential candidates. Votes were received from students residing in each congressional district. Additionally, votes were received from students residing in every county except for Atlantic, Salem, and Gloucester. These missing counties are not shown in the reporting tables.

A representative from each participating school district collected the voting results and submitted them via an online form. In total, 74 school districts across NJ participated, with a grand total of 65,696 students casting votes. 29,042 students were from grades 5-8, and 36,654 were from grades 9-12. Below is a table with the total students per grade per category.

In this report, "HOR" refers to House of Representatives and "District" refers to NJ's Congressional Districts.

In each map, the color of the county or congressional district represents the candidate or issue stance that received the most votes. On House of Representative and Presidential maps, red represents the Republican candidate and blue represents the Democrat candidate. Candidates from other parties did not gain enough votes to win any district or county and were not assigned a color. On issue maps, green represents a "yes" vote and red represents a "no" vote.

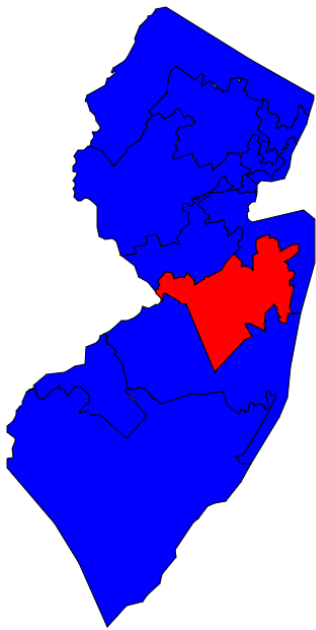

| <b>Grade</b> | <b>Votes for President</b> | <b>Votes for HOR</b> | <b>Votes on Gas Tax</b> | <b>Votes on Term Limits</b> |
